

UCF Pre-Health Alumni Mentorship Program

The UCF Pre-Health Alumni Mentorship Program, designed by three accomplished UCF Alumni consists of the following:

- Unique mentorship provided by the perspectives of UCF Alumni who have recently navigated the pre-health journey
- Medicine-specific workshops and events
- End-of-Year Dinner
- Exclusive scholarship opportunities for selected students

The purpose of this program is to assist students with anything related to the life of a pre-health student such as conducting and presenting research, seeking volunteer opportunities, obtaining internships and leadership positions, and ultimately crafting a more competitive graduate or medical school application. If you are interested in this opportunity and would like to learn more, please click on the Qualtrics link provided and fill out the brief questionnaire (~5 minutes).
